Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CAR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Please **rejoin** claim 13 because claim 13 depend from claim 11 that is allowed.

Supplemental Reasons for Allowance

Applicants' response to the last Office Action, filed on March 21, 2005 has been entered and made of record.

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 7 and 11 are allowable over the prior art of record. Claims 2-3, 8, and 12-13 depend from claims 1, 7, and 11 respectively, therefore, are allowed.

Independent claims 1, 7 and 11 recite the limitations of : control steps of controlling said header information processing step to enter an operation inactive or active state at a predetermined timing after the operation start command of the

encoding process was issued; and a notification step of sending an operation end message of the encoding process for the series of orthogonal transformation coefficients sequences from a variable-length code encoding step to the header information processing step. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

The closest reference of US 6782368 to Fujii et al. discloses a image coding and decoding method using header information. However, he does not teach the limitations of cited above.
